

BOLRD Dome Top Bollards

The BOLRD series features an elegant design with field adjustable wattage and CCT select options. These dome top bollards come standard with an on/off photocell for enhanced energy efficiency. They are ideal for pathway lighting in commercial and residential applications.

■ Color and Power Selectable

An all-in-one LED security light solution offering ultimate versatility, with the ability to change the color temperature (3 000/ 4 000/5 000 K) as well as the lumen packages to meet the needs of a variety of products and applications. An ideal solution for reducing stocking inventory.

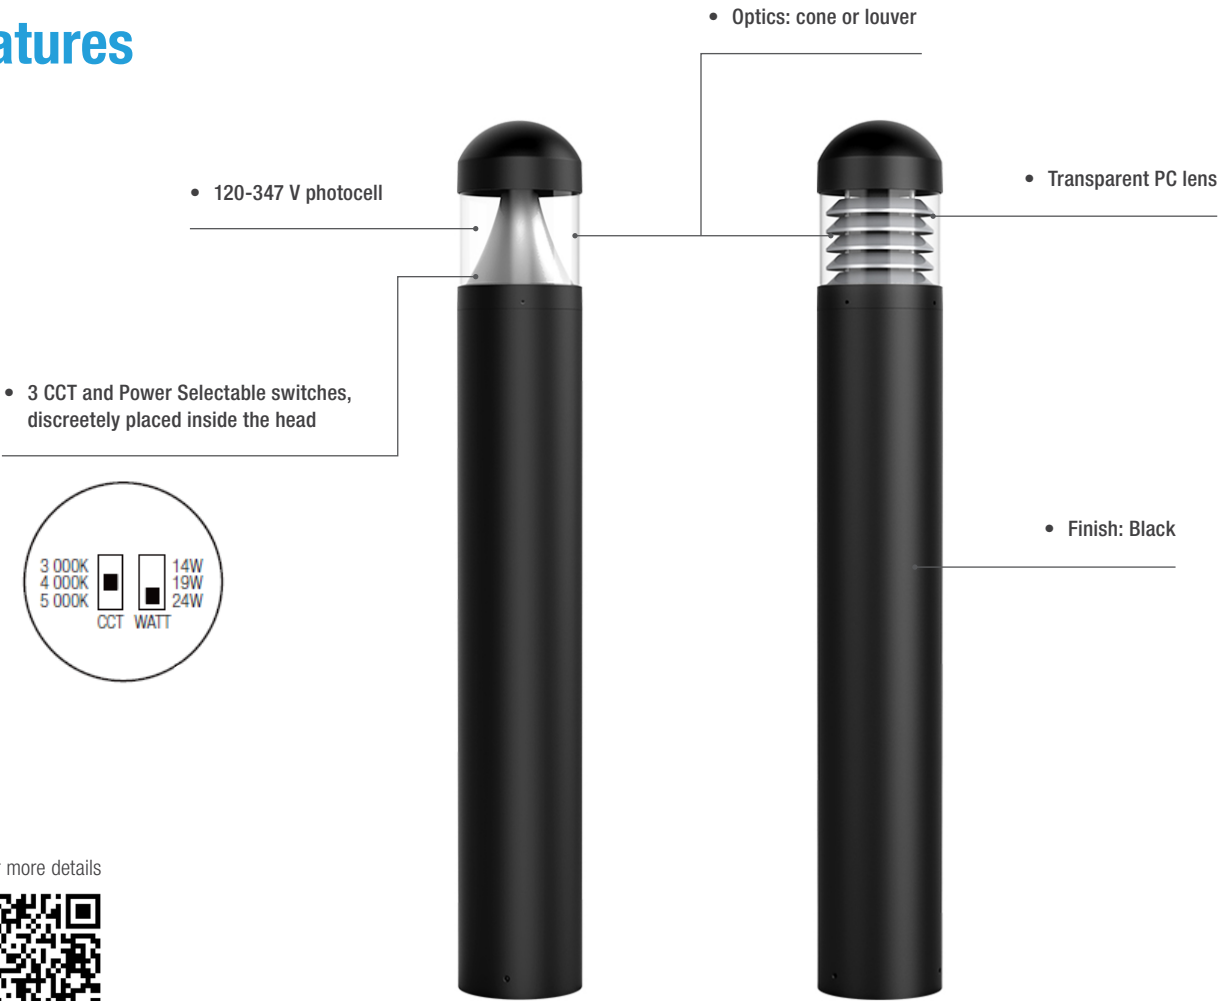

■ Optics

Select the head of your choice to better suit your needs: louver or cone.

■ Photocell included

An on-off photocell is integrated inside the luminaire and can be easily enabled.
