

STANPRO

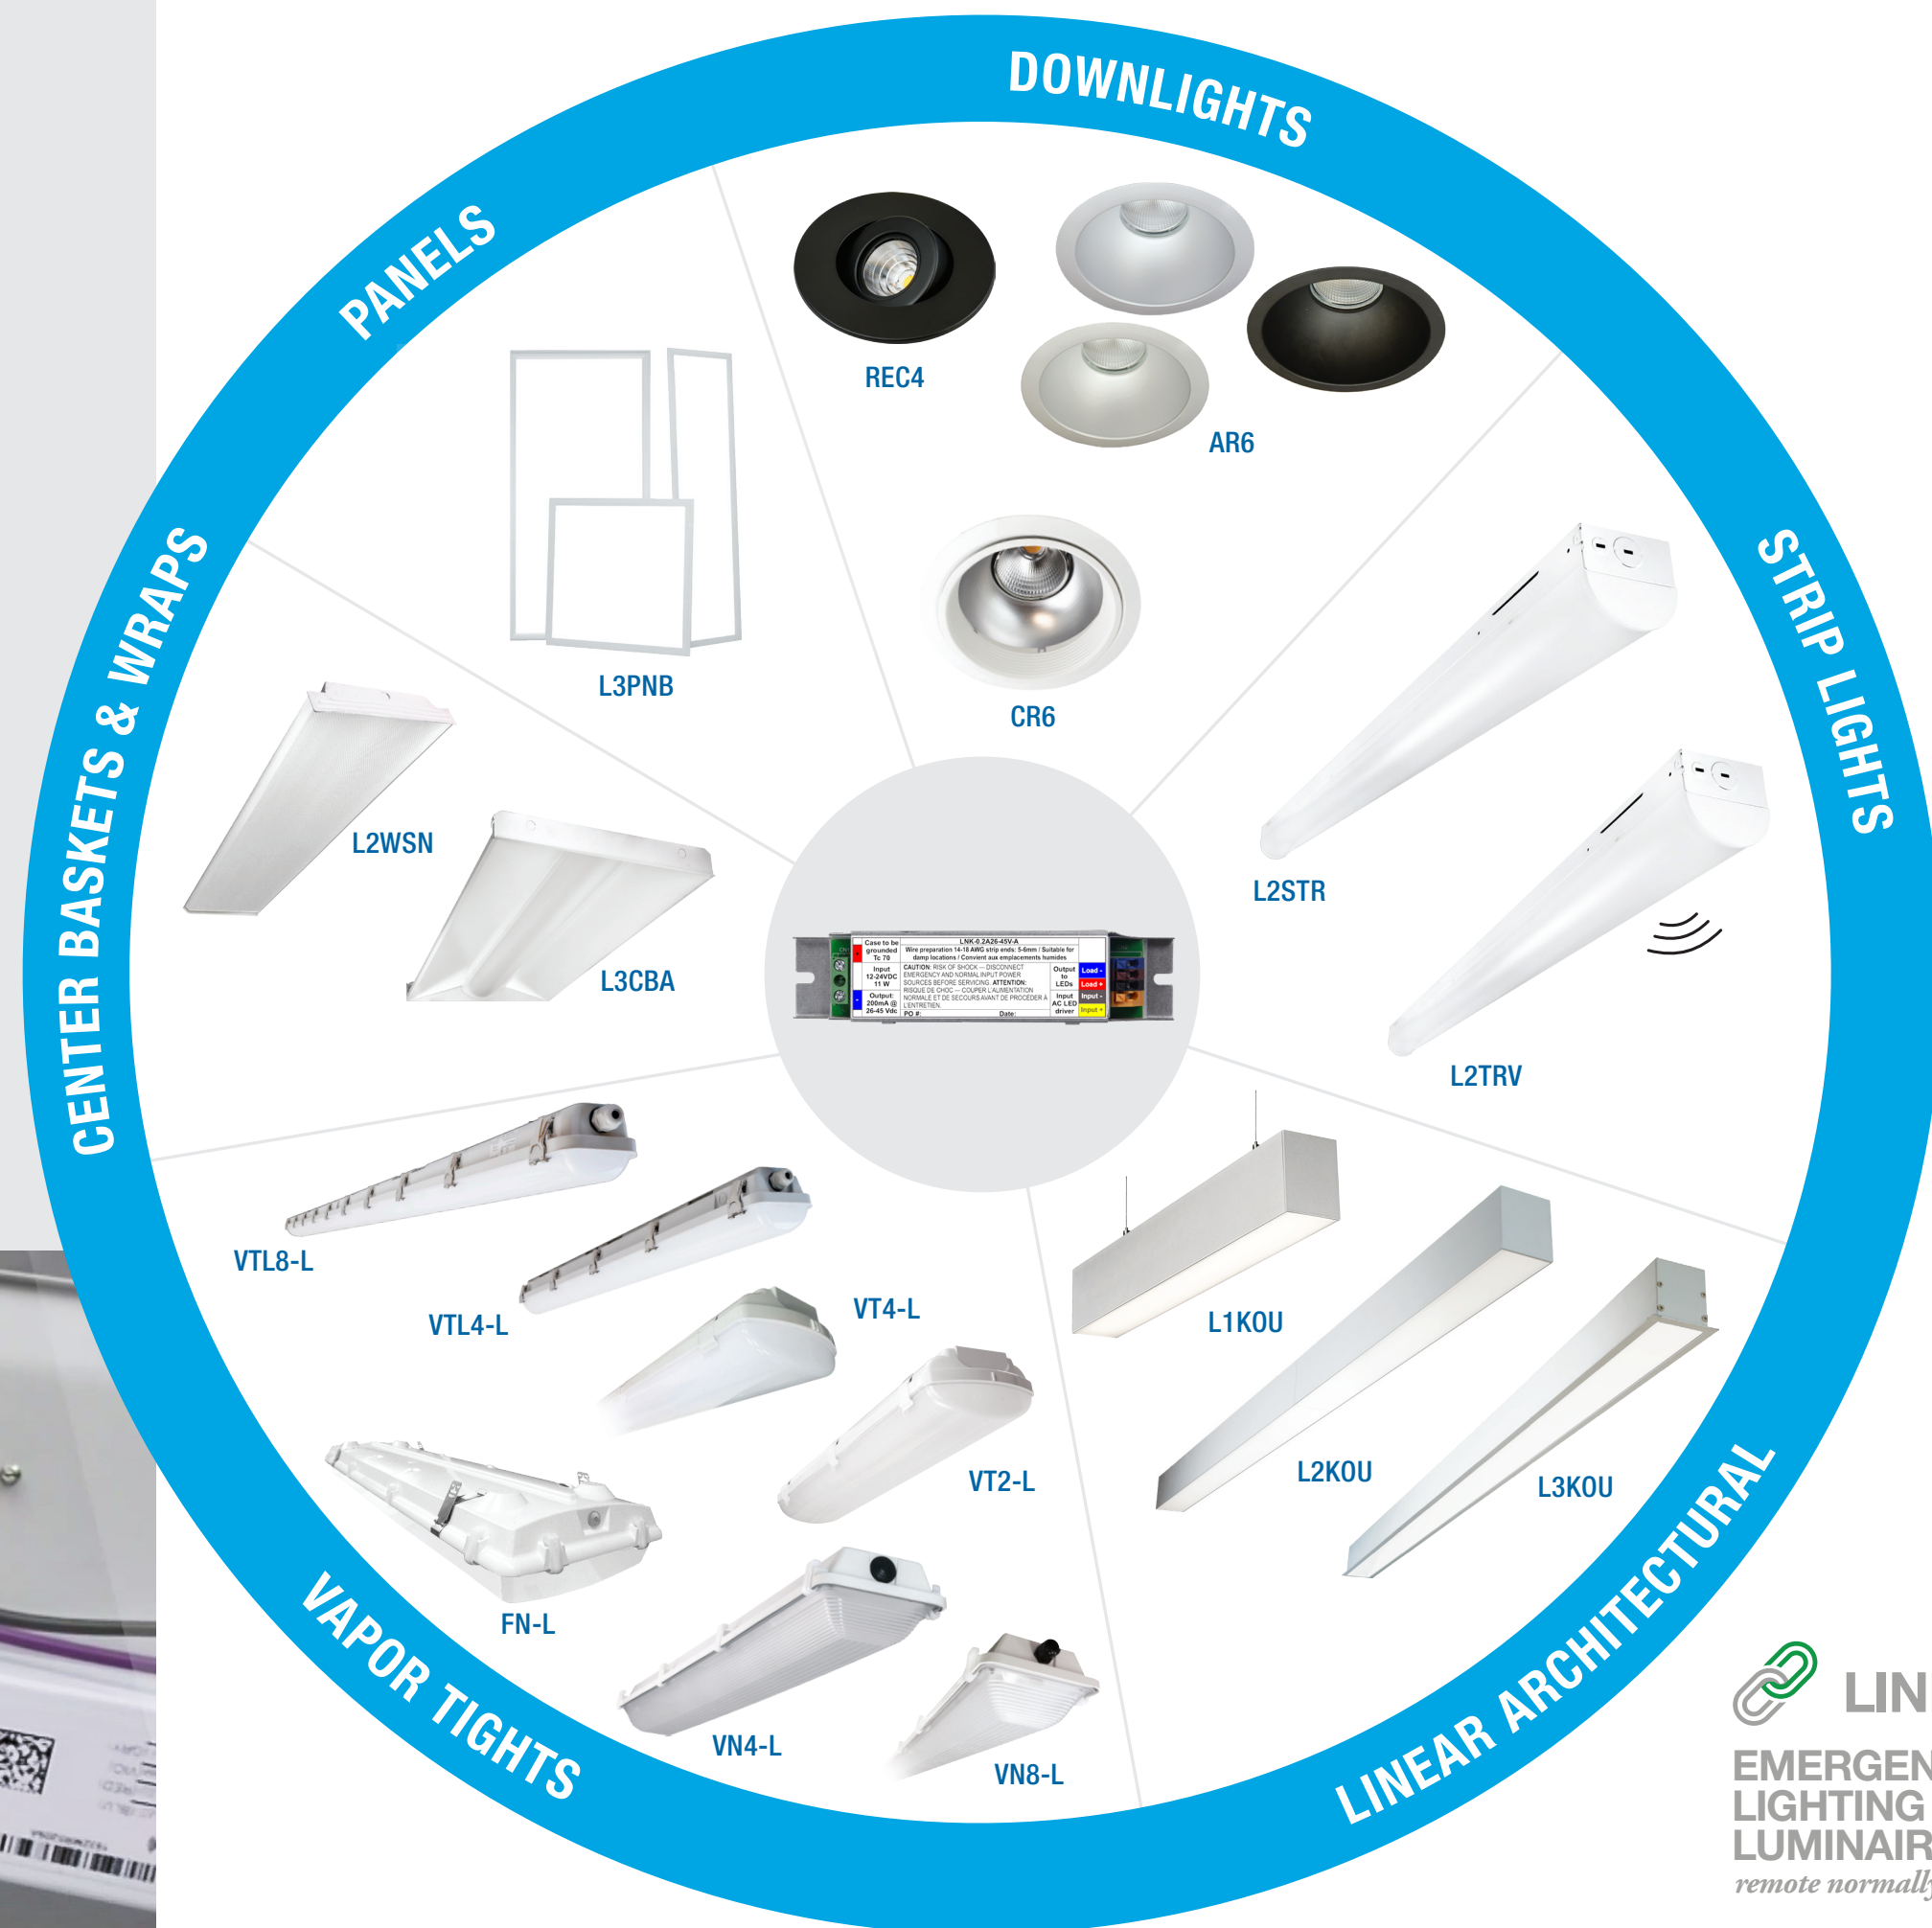

LINK REMOTE NORMALLY ON EMERGENCY LUMINAIRES

2 IN 1 FIXTURE :

Use any of these luminaires for your general lighting as well as an emergency lighting remote when choosing the factory installed LINK option, connected to a stanpro 12 or 24 V battery unit.

Benefits from luminaires with an integrated LINK :

- Aesthetically pleasing, replaces traditional 2 headed remotes
- Truly certified to CSA C22.2 #141-15 for emergency lighting
- Provide superior light uniformity
- Connects to a Stanpro 12 or 24 V battery unit complete with or without auto test function
- Factory installed
