

EDGE - L1DIP 4' 3CCT SELECTABLE SUSPENDED RECTANGULAR

The EDGE is now available with color adjustable temperature. A contemporary design with an ultra-thin profile, offering an excellent uniform direct/indirect lighting distribution, making it the ideal addition to any modern workspace. This versatile suspended luminaire can be mounted individually or in a continuous row system, providing linear illumination.

■ Lighting Flexibility

A truly flexible luminaire that is available with integrated 3 000/ 3 500/4 000K selectable color temperature, with high efficiency lumens offering 45% uplight and 55% downlight.

■ Modern Design

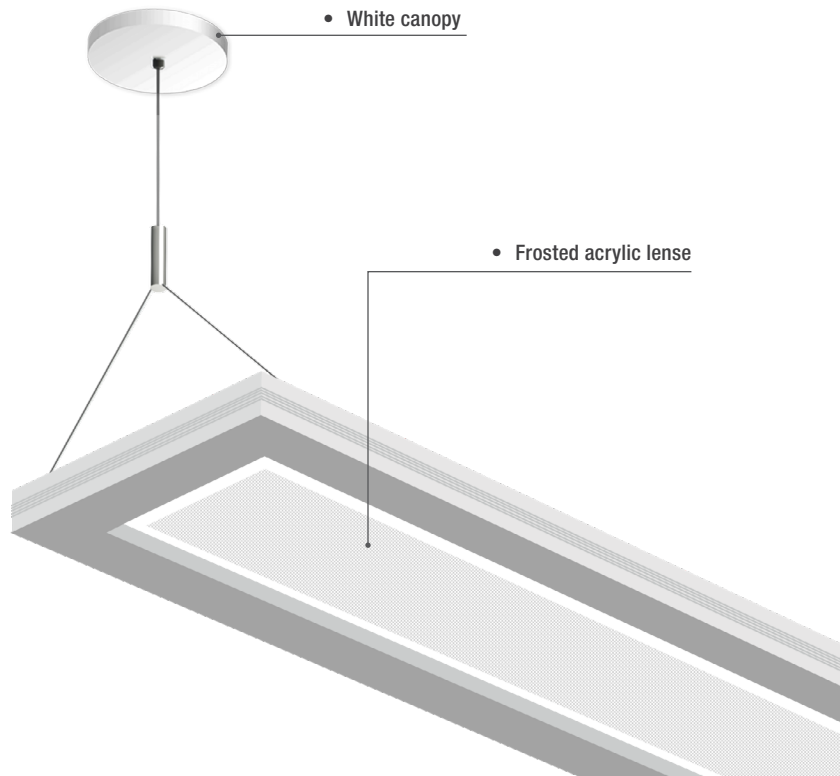

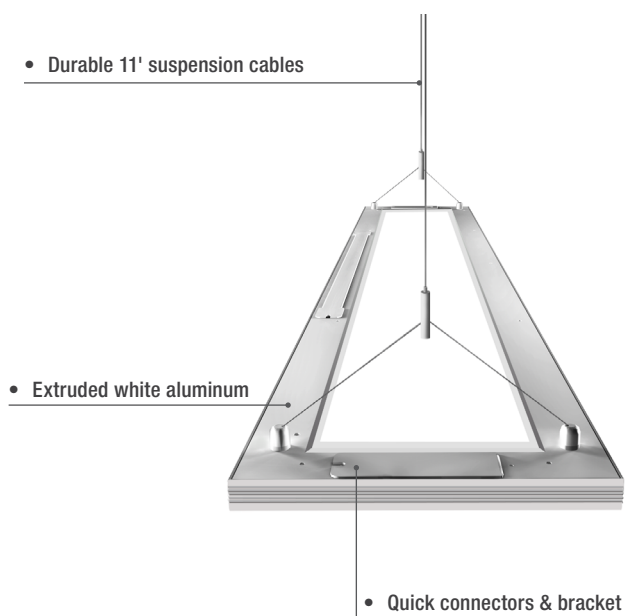

With its transparent lens, this sleek and light-weight design delivers outstanding uniformity while concealing lighting glare. An ideal luminaire for open or closed commercial spaces.

■ Seamless Mounting

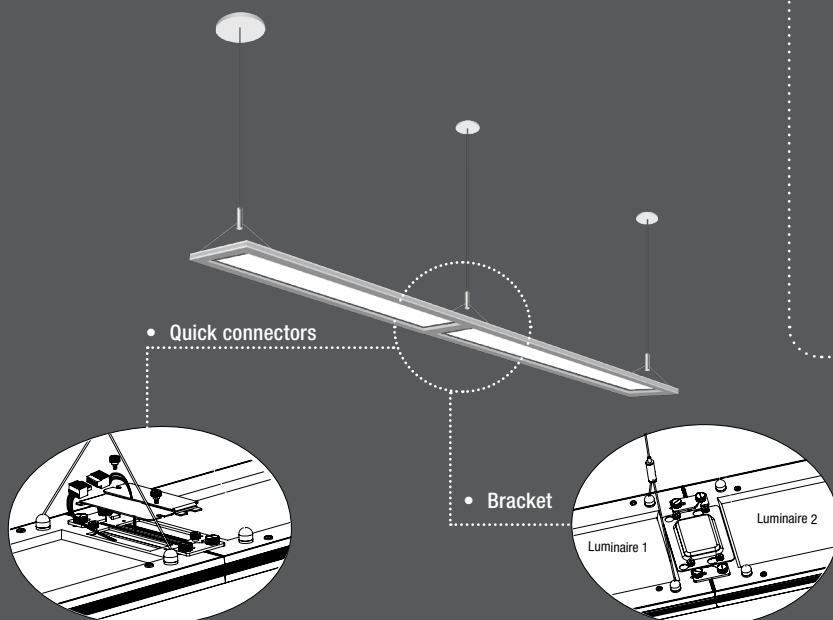

The fixture features built-in quick connectors to create a continuous row mounting system without additional hardware or accessories.

Innovative Design

The architectural EDGE series is a suspended rectangular luminaire that will modernize any commercial environment. This versatile luminaire combines high-efficiency lighting and provides mounting options either individually or joined together to create a continuous row mounting system providing linear illumination.

Continuous Mount

Dimensions

Only the first Edge luminaire will be hard wired, while the others are simply using embedded quick connectors inside the luminaires!
