location

### ■ Less Than 1" Thick

The LPDL downlight is specially designed for installation in shallow or constrained ceiling spaces. In applications where joists or ductwork is present, the LPDL is the right CHOICE!

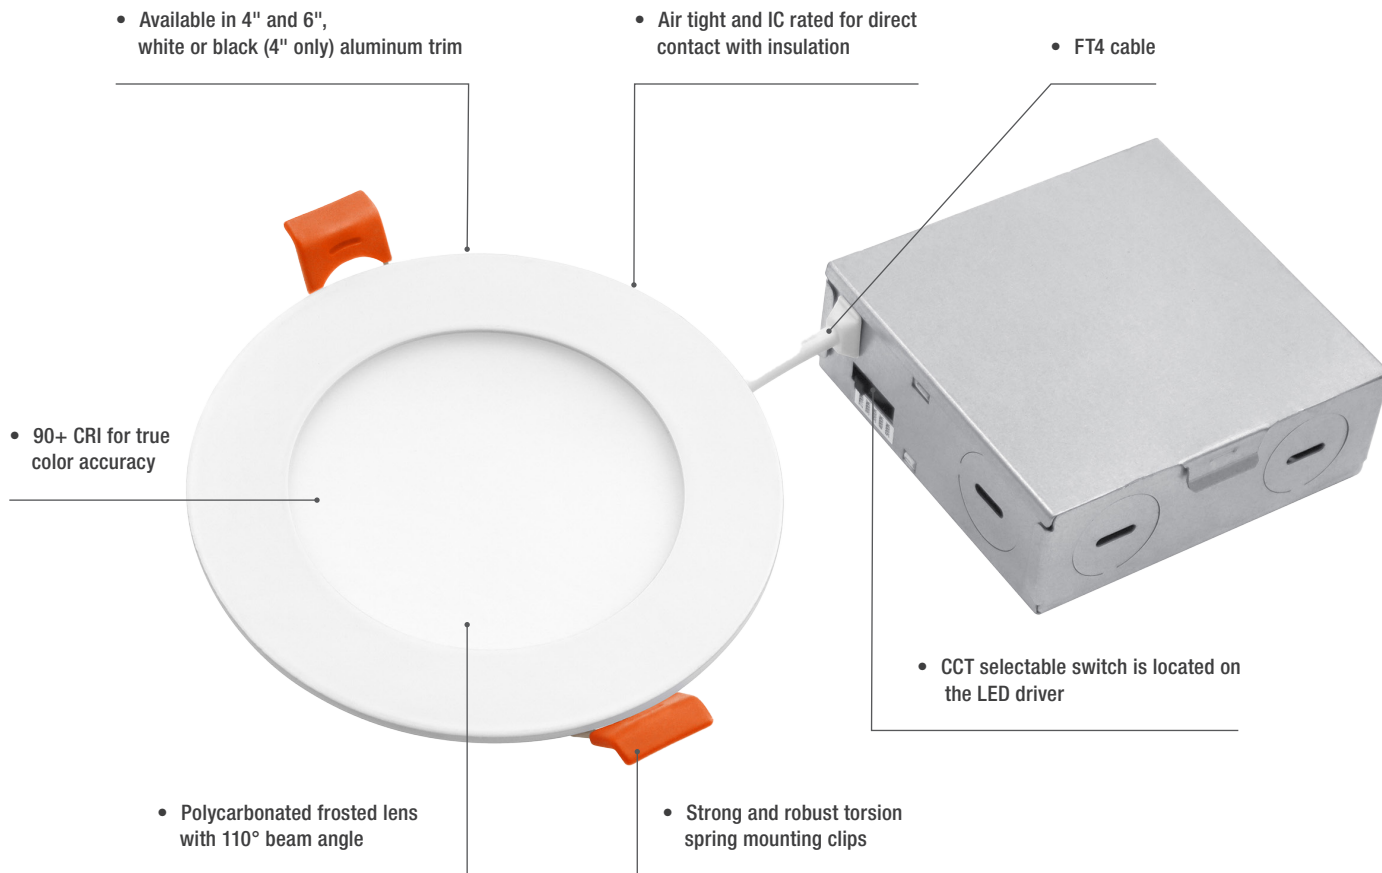

### ■ Adapted Color Temperature

Versatile solution available with integrated 5 color temperature (2 700/3 000/3 500/4 000/ 5 000 K). Easily select the desired color temperature using the switch located on the driver box.

### ■ FT4 Cable Rating

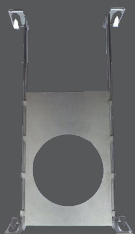

This downlight features FT4 rated cable for applications in most buildings including non-combustible constructions. It requires specific materials such as FT4 cable rating loosely running in the ceiling.

## LPDL - The Downlight of CHOICE!
