■ Set the Tone

With five distinct color temperatures to choose from (2700/3000/3500/4000/5000 K), whether bright or subdued, create the perfect lighting environment with BENTO. Set the tone with these LED wall sconces as they can be dimmed for a warm and welcoming ambiance.

■ Create a Focal Point

Draw attention to specific areas or features in an application by strategically placing the BENTO in areas where emphasis is required. Simply adjust the beam angles to control light output to accentuate décor elements and add depth to any indoor and outdoor space.

■ True Color Accuracy

With its 90+ CRI, the BENTO series offers superior light quality ensuring authentic rich tones. These luminaires bring life to a chosen space with realistic and vibrant colors across the full-color spectrum.

Small, but big on style!
