

STELLAR Small Aperture 2" Downlight

The STELLAR 2" recessed LED luminaire combines elegant, versatile design with easy installation. Its small diameter enhances the ambiance of any space.

■ Small aperture, powerful impact

This 2" downlight combines a small aperture with powerful performance, delivering up to 1 000 lumens and a CRI of 90+ to suit various design requirements. An interchangeable black trim, compatible with both CCT selectable and warm-dim models is also available.

■ Selectable color temperature

Easily select the right color temperature for your living space with the switch located on the LED module. Stellar is available in warm - dim 3 000-2 200 K or integrated 2 700/3 000/ 3 500/4 000/ 5 000 K selectable temperature.

■ Easy Installation

LED module with LED driver can be easily installed with included quick connect wire and installed with torsion spring mounting clips.
